REPORT OF THE EASTERN BERKSHIRE WELFARE DISTRICT

Report of Director to the Town of Washington:

The Eastern Berkshire Welfare District, established on July 1, 1951 with the Towns of Hinsdale and Peru has continued to be very active. The towns of Becket and Washington were added soon after the District's inception. On July 1, 1961 the town of Chester came into the District, making a total of five towns which are now serviced out of the District Office located on Main St. in Hinsdale, Mass.

With the addition of the fifth town, it was necessary to add more workers and approval was given by the Springfield District Office to employ another Junior Clerk Typist and a Social Worker. Mrs. Francis Tremblay of Becket filled the Junior Clerk Typist position and Mrs. Rufus Turner of Chester joined the staff as a Social Worker.

Necessary additional equipment was purchased in order to enable the workers to operate efficiently. At the end of the first year following acceptance of the fifth member town, I would like to extend my appreciation to members of the Prudential Committee from the five towns who have been invaluable in their cooperation and helpfulness during this period of adjustment.

Four categories of assistance have been participated in during the past year. The newest category, Medical Aid To The Aged has proven to be an expensive one since it covers medical needs, nursing home care, hospital services and doctors plus medication, for those over 65 who are not receiving Old Age Assistance. Reimbursements are received on the basis of claims presented monthly and subject to later audit. Payments are received two months later, therefore reimbursements and expenditures can never match month for month in the fiscal year.

Federal monies returned to the town are known as a revolving account, therefore balances left at the end of the year may be carried over into the new year. Commonwealth reimbursements to the town go into the town general account, and are not re-usable, although they are counted as a receipt and may be used to reduce the tax rate for

the following year. Federal reimbursement in Old Age Assistance was increased \$.80 per case this year giving a total of \$49.80 per case each month.

Medical costs continue to rise. The Director of Hospital Costs and Finances has set rates for nursing home care at \$6.85 per diem and hospital rates in the local hospitals have risen on the average of \$1.55 per diem.

In closing, I wish to express my appreciation for the cooperation of town officials, with particular reference to Mr. Harry C. Shaw, veteran member of the Board and representative to the Eastern Berkshire Welfare District who is retiring this year. His consideration and cooperation in the work will be greatly missed.

Respectfully submitted,

JOSEPHINE H. EAMES,

Director

Working Certificates:

Any employment, either part time or full time, of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with either the full time or part time employment of minors between 16 and 18 years of age in a factory, workshop, manufacturing, mechanical, or mercantile establishment, barber shop, or in construction or repair of buildings, a bootblack stand, or establishment, or by an express or transportation company. There are some prohibited employment for minors under 18.

These permits and certificates may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Washington:

This is the seventeenth annual report which I have submitted as Superintendent of this School Union.

The Washington Elementary School is of vital concern and interest for the people of Washington. Some see it at Town meeting, some see it at programs of the school, others as P.T.A. members, some as lunch workers. Some see it in connection with their pocketbooks, others view it with a vision of what it can do for the children of Washington. Of course, there are combinations of these views and the outstanding image is one of hope that these efforts are well spent. The pupils' day to day view is one of instruction and activity. The teachers look to the longer range objective reached by the daily plans. The school committee have budgeting duties and the overall concern for the conduct of the school.

In each annual report only the highlights of some of these factors are touched. Perhaps the first highlight for 1961 was the resignation of Mrs. Whitney as teacher-principal of the school. While she was here she contributed much to the Washington School. Her stay here was deeply appreciated. Her leaving was regretted by all. From a teacher with long experience we changed to a young man teaching for the first time. This could have been quite a shock, but we are happy to report that all is working out well. He has other and different things to offer.

The expenditures for 1961 were less than anticipated chiefly because of the change in teachers. There was also less required for high school tuition due to pupils leaving. These two items account for the balance which is being returned to the general fund. However, due to the increased number of high school pupils and an increase in the tuition rate, this item totals \$1,225.00 more than last year. While there is only one high school senior this year, there will be seven entering high school in the fall.

Tuition Rates

Pittsfield High	\$585.15
Wahconah Regional	540.00
Vocational	450.00
Junior High	451.26

An increase in the present teachers' salaries still totals less than what was estimated for 1961. The transportation item is down \$200. Most of the others are the same as for 1961. The total is \$975.00 above the total for 1961.

I am happy to be able to continue to thank the volunteer lunch workers for their fine contribution and the P.T.A. workers for their continued help on items like the school fence.

In conclusion, I should like to commend the School Committee who have worked faithfully and intelligently in doing the job for which they were elected. All actions have been the result of deliberate thought and with a sincere effort to do what was best, in their judgment, for the school and the town.

Respectfully submitted,

EARL C. SUITOR,
Superintendent of Schools

REPORT OF SCHOOL NURSE

Mr. Earl C. Suitor
Superintendent of Schools
Washington, Mass.

Dear Mr. Suitor:

I submit the annual health report for the Washington School for the year 1961.

The second dental survey of the school children was conducted by Mrs. Elizabeth Watt, State Dental Hygienist. A report of the individual findings were given to each child to take home. There were 43 visual examinations and 18 were referred as needing dental care and urged to see their family dentist.

Forms were completed on immunization records of first grade pupils and sent to the Massachusetts Department of Public Health.

Physical examinations of the 1 - 4 - 7 grades and those referred by the teachers were given by Dr. George Breit, School Physician. The defects were noted and parents notified if necessary.

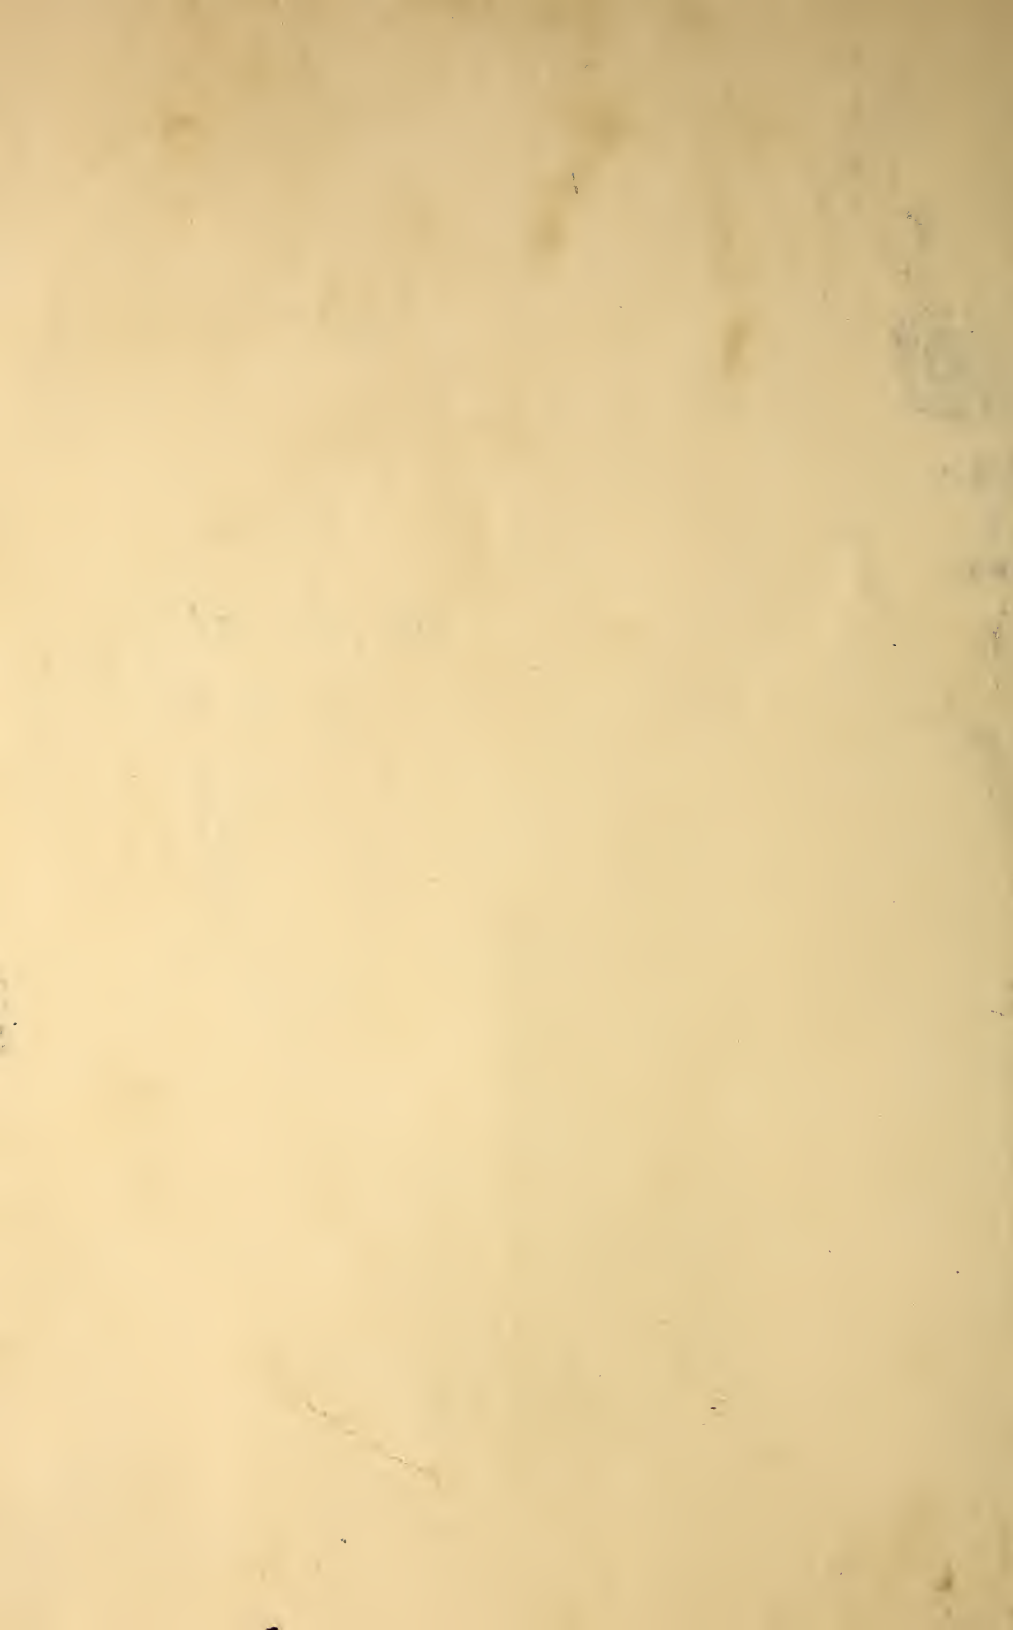

A clinic for Mantoux testing for tuberculosis was held in November. This was done with the cooperation of the Tuberculosis Clinic in Pittsfield, with Mrs. Mary Coughlin, R.N., clinic supervisor. There were 51 tested at this time.

Vision and hearing tests were given to all pupils, parents notified of failures. State reports on vision, hearing and physical examinations have been sent to the State Department.

I wish to take this opportunity to thank the School Committee, parents, teachers and children for their cooperation in our health program.

Respectfully submitted,

REPORT OF THE EASTERN BERKSHIRE WELFARE DISTRICT

At the close of the year 1962, the town is aiding a total of six cases on assistance. An appropriation made at the February town meeting was more than adequate to meet the assistance needs and a balance of \$1,865.03 was returned to the town general fund. No cases were in need of Aid To Dependent Children during the year and a Federal balance of \$355.80 will continue to be carried into 1963. Receipt of \$205.32 from the Commonwealth represents reimbursement for cases aided in 1961. We are still awaiting distribution of monies returned to the town under Medical Aid To The Aged program.

Legislation effective October 1, 1962 will raise the Federal reimbursement on all categories by \$4.50 per month on each case. This new formula will show more reimbursement at the end of the next full year.

The net cost to the town for both Old Age Assistance and Medical Aid To The Aged programs show a net gain for the year. We must remember that reimbursements received in 1962 are not made on the same expenditures. No Federal reimbursements have been received as yet on Disability Assistance since the one case being aided was approved very nearly at the end of the year.

The amount of \$23,192.43 was expended in operating the Eastern Berkshire Welfare District, of which Washington's share averaged 3.5% or \$817.06 less State and Federal reimbursements of \$666.50, leaving a net cost of \$150.56. Due to the increase in reimbursements from the Federal government and the loss of one Social Worker for several months, our request for 1963 is \$258.50 as Washington's share in operating the District. The budget approved by the Prudential Committee is \$24,200.00 and Washington's share will be approximately 4.7% after estimated reimbursements are deducted.

In closing, I wish to extend my appreciation for the excellent cooperation given by your Treasurer, Mrs. Lorraine Deane. Cooperation is most essential in order to make a program workable.

Respectfully submitted,

JOSEPHINE H. EAMES,

Director

Working Certificates:

Any employment, either part time or full time, of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with either the full time or part time employment of minors between 16 and 18 years of age in a factory, workshop, manufacturing, mechanical, or mercantile establishment, barber shop, or in construction or repair of buildings, a bootblack stand or establishment, or by an express or transportation company. There are some prohibited employments for minors under 18.

These permits and certificates may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Washington:

This is the eighteenth annual report which I have submitted as Superintendent of this school union.

One is apt to think of the work that goes on in an elementary school as the same year in and year out. Reading, writing, arithmetic and the other subjects of the curriculum—young children behaving and misbehaving, while going through the activities connected with the acquiring of some answers to give back to the teacher, hoping for a good mark. The fact is that there is change all of the time. Different children developing and changing—different materials, methods, teachers—different times and needs with changing emphasis. Of course, the need to learn to read, write and figure and to understand the materials in the other subjects continues. It is incumbent upon the school to recognize individual differences and provide learning situations so that each may develop to his full potential. The teacher is explaining, questioning, helping and encouraging, is continually striving to reach each child. Having an awareness of the whole class while helping an individual—planning, presenting, testing, checking, re-teaching, reviewing, controlling and directing. The magnitude and delicacy of the task coupled with great expectations and hope of the parent creates a job for only dedicated people who are rarely adequately compensated and seldom fully appreciated.

Mrs. Kimball resigned last Spring to accompany her husband to a new job in California. She had served the young children of Washington well for a number of years. We certainly hope they are happy in their new home.

Mrs. Eileen Bybee has taken over the primary room and is proving very satisfactory. I hope we are fortunate enough to have her stay with us for a long time. We are studying the advantages of an ungraded primary unit. In effect, it doesn't mean much of a change in Washington, but the idea is that each child should progress at his own rate. There would be no grade breaks, perhaps until about the beginning of the fourth grade. No one would repeat a grade but might take four years to complete the primary unit. There would be no skipping a grade, but a pupil might complete this unit in two years. Most, perhaps all, would take three years.

The progress of most of the pupils in the school is quite satisfactory as the results of standard achievement tests show. Mr. Collins has been singularly successful in reaching the members of his class. Individual differences are accentuated as the children progress through the grades. Some have special problems as well as different interests. The adolescent is sometimes difficult for himself and for adults. Mr. Collins has used understanding, firmness and conscientious effort in meeting their many needs.

Reporting now on the financial aspects of the school, we find that the estimate for teachers' salaries was high leaving a substantial balance. This was due to the fact that we no longer needed a home teacher nor a helping teacher. The teacher salary item in the 1963 budget is lower for the same reason. There was less spent than anticipated for high school tuition. This was due to fewer pupils. As you know, the unexpended balance returns to the general fund. The item in the 1963 budget for high school tuition is up because of the fact that three will graduate while the freshman class will be five. There is also the expectancy of two pupils returning to Washington. This item is simply arrived at by multiplying the number of pupils by the rate—(\$616 per year).

The cost of textbooks and instructional supplies is increasing, hence the slight increases in these items. The committee recognizes the need for adequate instructional supplies.

The additional sum in the "janitor" item is for other than school use of the building, if this responsibility reverts to the school committee. \$900.00 has been added for transportation. This is about what the late high school bus costs. As can be noted, the 1963 budget is up about \$3,000 or about 7.9%.

The P.T.A. should be congratulated on receiving a citation and award from the State P.T.A. for their activities last year—especially for the volunteer help on the school lunch program.

In conclusion, I wish to thank all who have contributed to the successful operation of the Washington Elementary School. We are looking forward to another year, continually trying to improve on past efforts.

Sincerely,

EARL C. SUITOR,

Superintendent of Schools

REPORT OF SCHOOL NURSE

Mr. Earl C. Suitor
Superintendent of Schools
Washington, Massachusetts

Dear Mr. Suitor:

I herewith submit the annual health report of the Washington School for 1962.

Physical examinations of Grades 1, 4, and 7 and also all new pupils were completed by Dr. George Breit, School Physician.

The Mantoux tests for Tuberculosis were given to fourteen children and eighteen adults by Mrs. Mary Coughlin, R.N. of the Tuberculosis Clinic. Positive reactors are followed with a chest X-ray.

A dental survey of the children was conducted by Mrs. Elizabeth Watt, State Dental Hygienist. There were 46 visual examinations and 13 referred as needing care. This shows an improvement over the previous years.

Vision and hearing tests were given to all pupils and parents notified of failures.

Reports on hearing, vision and physical examinations are sent to the State Department.

The oral Sabin Vaccine which was available for immunization of children from three months to seven years was taken by 33 children. This group received Type I and III of the oral vaccine. It is planned to complete this series as soon as possible. Also planned is a program to include the age group who were not eligible for the vaccine in the 1962 program.

I wish to thank the School Committee, teachers, parents and pupils for their interest and cooperation in our health program.

Respectfully submitted,

IRIS J. MORGAN, R.N.,
School Nurse

SELECTMEN'S REPORT

To the Residents of Washington:

1963 saw the completion of our current Chapter 90 work on the Pittsfield Road. During 1964 our Chapter 90 work will be concentrated on the Middlefield Road.

The enactment of the "Conflict of Interest" law made it necessary for us to purchase a new four-wheel drive pickup truck. This truck has been equipped with a plow and we now have greater flexibility of our snow equipment.

The new Maplevew Nursing Home was constructed during 1963 as well as several other new dwellings. We hope that our town will continue to grow and to help guide and prepare us for future growth a Town Planning Committee has been appointed.

We were all saddened in 1963 by the passing of one of our Town Fathers, Harry C. Shaw, and by the unfortunate death of our beloved President, John F. Kennedy.

With few exceptions, most accounts were kept within the appropriated amounts.

If we use sound judgment and careful management on our part, and get the cooperation and help of all townspeople, which is so necessary in a task such as ours, we feel we can look forward to the year 1964 with confidence.

Respectfully submitted,

RICHARD J. HURLEY
JAMES J. QUIRICO
ROY G. SIMMONS

REPORT OF THE EASTERN BERKSHIRE WELFARE DISTRICT

The Eastern Berkshire Welfare District, established July 1, 1951 now services five towns through the office located on Main Street in Hinsdale. The town of Chester joined the other four towns, Hinsdale, Peru, Becket and Washington two years ago making a total of five towns. A personnel of five employees carry on the administrative work. Mrs. Lucille Lasch of Pittsfield, came to the District as a Social Worker in March 1963.

Richard Hurley of Washington became the Prudential Committee member following the 1963 Town Meeting and has been very cooperative in attending meetings and interpreting policies and recommendations.

On January 1, 1963 there were 5 cases receiving aid: 1 on Old Age Assistance, 3 on Medical Aid to the Aged, and 1 on General Assistance. The cases have remained steady with no new application and there are the same number still receiving assistance as of January 1, 1964.

There are several changes which have taken place during the past year: On September 1, 1963 payments for all Old Age Assistance, Aid to Families with Dependent Children and Disability Assistance cases were increased in accordance with an increase in the cost of living as reported by The Division on the Necessaries of Life. Chapter 550 of the Acts of 1963 provided an increase in the allowance for "Leisure Time Activities" to Old Age Assistance recipients. Both of these increases will be felt over a twelve month period in 1964.

Hospital costs will increase in 1964, though the new rates have not been established as yet.

Legislation has abolished settlement in both Old Age Assistance and General Assistance effective January 1, 1964. In accordance with this regulation, towns of settlement will not be responsible for cases aided in other towns; nor will other towns bill for aid rendered a recipient to the town of settlement.

The Commonwealth will reimburse towns 20% for all cases aided under General Assistance.

These changes will have their effect on every town and will doubtless be felt during 1964.

The budget of \$28,450.00 was approved by the Prudential Committee for the Eastern Berkshire Welfare District administrative costs in 1964. Washington's share is approximately 3.8% or \$152.00. There have been several changes in estimates for expenditures in 1964. Annual increments for salary set by the Welfare Compensation Plan, plus a full time social worker and a part time clerk, have increased the salary estimate \$2,800.00. With the prospect of securing twice the amount of floor space which we now occupy, and which is very sorely needed, the rent and maintenance estimate is increased approximately \$500.00 over the 1963 expenditure. Due to larger payrolls involved, our assessment to the Berkshire County retirement system will be increased \$500.00 in 1964. This figure is set by the County Commissioners each year.

The above increases as well as smaller increases in other budget items has resulted in a total budget increase of \$4,250.00 over the 1963 budget.

Our estimated receipts for 1964 amount to \$24,450.00 leaving a net cost to the five member towns of \$4,000.00 which is \$1,500.00 less than our actual costs for 1963. The assessment for each town is determined according to each town's percentage of the total case load.

In closing I wish to again extend my appreciation for the cooperation of your Board Member, your Treasurer, and all other town officials who help to make the work of District Administration a pleasure.

Respectfully submitted,

JOSEPHINE H. FAMES,
Director

School Entrance Age:

Pupils must be six years of age December 31st.

Working Certificates:

Any employment, either part time or full time of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with either the full time or part time employment of minors between 16 and 18 years of age, in a factory, workshop, manufacturing, mechanical or mercantile establishment, in a bootblack shop or barber shop, in the construction or repair of buildings or by an express or transportation company. There are some prohibited employment for minors under 18.

These permits and certificates may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Washington:

This is the nineteenth annual report which I have submitted as Superintendent of this school union.

The continuing aspect of the school work is always with us. We think of the continuing work with the fundamentals which is important, but there is always a continual search for better methods as well as trying for excellence. In working with students in school we are continually aware of the individual differences. We are all endowed with different talents and we all are motivated at different degrees. At all levels we are trying to understand these differences and provide for them. With four grades in each room there is a wide range of age and ability, but with this multiple grade arrangement it is possible to make certain adjustments for the benefit of individual pupils. Mr. Powers is working hard at providing opportunities for each pupil to progress as far and as fast as he is capable. We have to be careful here to recognize growth and achievement as well as acceleration. His conscientious industry is being matched by good pupil effort for the most part. The fine work being done in the primary room was being handicapped because of the increased number of pupils. A helping teacher, Mrs. LaRock, has again been engaged. This assistance is appreciated by Mrs. Bybee and the children are the real beneficiaries.

Mrs. Ellen Wheeler has been engaged as music supervisor. This fills a need which we have had for sometime. The work of Mrs. Spencer, Art Teacher, has been so appreciated that she has been asked to come once a week instead of alternate weeks. As you know, Mr. Collins left our school last June and travelled in Europe from September until Christmas. Mr. William Powers, Jr. has been engaged to teach grades 5-8 and act as principal for the building. This is his first year of teaching and he is working hard and well for the benefit of the Washington pupils.

Financial

We were able to close the year with a balance of close to a thousand dollars which returns to the general fund. This came about because

of a change in teachers, a favorable transportation contract, and a smaller high school tuition expenditure than had been expected. In addition to returning this balance, it was possible to purchase additional educational supplies and textbooks as well as some new light fixtures for the multi-purpose room so that it could have wider use for physical education.

The 1964 budget is \$39,051. This is a little less than \$400 more than the 1963 budget. This still allows for increases in salary (\$200) for the teachers, doubling the art teaching, and providing for children with speech problems. A lesser amount is budgeted for transportation and high school tuition. There will be fewer high school pupils next year. Most of the items in this budget are the same as last year. There is an increase for the superintendent. This was required because of a new minimum salary established by the state legislature for Union Superintendents. This new law also increased the reimbursement for this service. Washington will receive an additional reimbursement, three times as much as the raise in salary.

As always, I wish to close this year's report with an expression of gratitude to the many people who have made our school year successful. Especially to the parents, the majority of whom are loyally by our side in all we are doing to fit their youngsters by learning and character for the challenges of tomorrow's world.

Respectfully submitted,

EARL C. SUITOR,
Superintendent of Schools

REPORT OF SCHOOL NURSE

Mr. Earl C. Suitor
Superintendent of Schools
Washington, Massachusetts

Dear Mr. Suitor:

I herewith submit the annual health report for Washington School for 1963.

Physical examinations of Grades 1, 4 and 7 and also all new students were completed by Dr. George G. Breit, School Physician.

Vision and hearing tests were given to all students and parents notified of failures.

Reports on hearing, vision and physical examinations are sent to the State Department.

The Mantoux test for Tuberculosis, as required by law, was given to new personnel.

Sabin oral polio clinics were held at the school in January, March and May. A total of 110 doses of vaccine was administered to the school children.

The dental survey was continued this year as it has yearly since 1960. This oral inspection is given by Mrs. Elizabeth Watt, State Dental Hygienist.

REPORT OF THE EASTERN BERKSHIRE WELFARE DISTRICT

The general public, it would appear, has little conception of the organization and functions of the Public Assistance Program at both the State and local levels.

The four programs administered by the Massachusetts Department of Public Welfare are Old Age Assistance, Aid to Families with Dependent Children, Disability Assistance and Medical Aid to the Aged. The intent of the Social Security Act is the alleviation of need. It provides for the minimum standard of living for all people, that they may be assured of a standard of living that is decent and in keeping with the ideals upon which this country was founded and continues to operate.

Old Age Assistance is designed for persons 65 or over who have insufficient resources with which to meet their needs. An applicant must be in need and may have less than \$500. in tangible assets. Applications may be made at the District Office and are taken by either the Director or Social Worker.

The Aid to Dependent Children program, amended to Aid to Families with Dependent Children under the Social Security Amendments of 1962, is a program designed primarily to aid those children deprived of a working parent or bread winner. Under this program, children and their mothers are eligible for public assistance if the father is absent from the home by death, desertion or is disabled.

Disability Assistance was instituted in 1951. This type of assistance is given to an individual between the ages of 18 and 65 who is permanently or totally disabled and therefore, unable to be gainfully employed. This disability may be of a mental or a physical nature and the extent of such disability is determined by the Medical Review Team of the Massachusetts Department of Public Welfare.

Medical Assistance to the Aged, the newest form of assistance established October 1960, made possible under the provisions of the Kerr-Mills Bill passed by Congress in that year. This bill provided medical care for the aged citizen over 65 and requires a means test. This program is not based on budgetary needs.

The fifth category of assistance known as General Assistance is administered by the Director under supervision of the Board members. It should be pointed out that General Relief cases are constantly screened in an effort to transfer any cases to another type of assistance because of a physical disability.

Those temporarily unemployed are generally awaiting unemployment benefits. All possible Social Security benefits are explored. In the area of supplementary aid to the low income group—there are those with large families who do not earn enough to support the family in accordance with the State Standards of Assistance. Budgetary needs are computed on the basis of the number in the family, age and living arrangements. Wages earned are used as a resource. The difference between the budgeted needs and the resource is a deficit. There are times when this deficit needs to be met in order for such a family to maintain itself. At times it may be only medical care which needs to be supplemented.

All able-bodied men are required to work in one of the Town Maintenance departments for all aid given.

The number of cases receiving Old Age Assistance has remained unchanged throughout the year with only one case.

No cases were aided under the Aid to Families with Dependent Children or the Disability Assistance program.

At present six cases are open under the Medical Aid to the Aged program but five actually received aid. Three are nursing home cases; one receives Social Security benefits.

One case continues to receive General Assistance.

At our own local level, we strive to fulfill the concepts and philosophy of the public assistance program as prescribed in the foreword of our manual.

The fundamental aim of this program in Massachusetts is through financial assistance and service, to meet the basic needs of those people who are unable to meet them through their own efforts and resources.

School Entrance Age:

Pupils must be six years of age December 31st.

Working Certificates:

Any employment, either part or full time of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with the full time or part time employment of minors between 16 and 18 years of age, in a factory, workshop, manufacturing, mechanical or mercantile establishment, in a bootblack shop or barber shop, in the construction or repair of buildings or by an express or transportation company. There are some prohibited employment for minors under 18.

These permits and certificates may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Washington:

This is the twentieth annual report which I have submitted as superintendent of this school union.

From January to June there were forty-seven pupils in eight grades in the Washington school. Mr. Powers in the upper grade room and Mrs. Bybee in the primary room were assisted by Mrs. LaRock. The achievement tests showed good progress. The science fair, graduation exercises and school activities were successful. In June Mr. Powers left to teach in New Hampshire.

During the summer, plans to cooperate with Becket were developed, presented to the people of Washington—approved and put into effect. This is a short statement covering joint meetings, correspondence, approving an agreement, transfer of instructional materials and furniture, obtaining a teacher, repairing equipment, planning transportation and program. The result is a cooperative project with the town of Becket. All pupils in both towns now are in classrooms of one grade to a teacher. The first two grades are in the Washington school. They are fortunate in having two fine teachers. This is a happy school—both pupils and teachers. The upper grade pupils have the advantage of the larger Becket school and the opportunities it offers, which could not be supplied in the Washington school. The Becket pupils share in these advantages. This arrangement is working well.

Another change which became effective this year was the hiring of a lunch manager and cook. This has been under consideration for several years. Mrs. Poillucci, who had been supervising the program with volunteers was appointed to the position. I should like to again thank all of the ladies who have made this program a success for the past years.

As our school contains only grades one and two, the art and music are covered by the classroom teachers. The nature program was also discontinued as it was primarily for grade six. We have no school psychologist at the present time. Mrs. Elizabeth Fillio was appointed

school nurse in each of the towns of the union. We have been fortunate in being able to obtain Mr. Norman Carmel as speech therapist on a part-time basis.

Financial

Expenditures for 1964 were \$38,311.39. This is \$739.61 less than had been anticipated. The savings were chiefly in teachers' salaries, where we had discontinued the art, music and nature supervisors, as well as the psychologist. There was also a balance in the high school tuition item because of fewer pupils than planned for.

The budget for 1965 is up only \$749.00 in spite of the fact that there is a new item of \$1,000 for the lunch supervisor and \$250 for the school clerk. There was need for less in the high school tuition item because of fewer pupils.

Other parts of the budget for 1965 were either the same or nearly the same.

The school clerk has been employed four hours a day and paid by Hinsdale. Because of additional paper work required by the state offices, more time was needed. This additional time is to be shared equally by the four towns of the Union.

There is every reason to believe that the coming year will be one of progress and achievement.

Respectfully submitted,

EARL C. SUITOR,
Superintendent of Schools

REPORT OF SCHOOL NURSE

Mr. Earl C. Suitor,
Superintendent of Schools
Washington, Massachusetts

Dear Mr. Suitor:

I hereby submit the annual report for Washington School in Washington, for 1964.

Physical examinations of all school children were completed by Dr. George Breit. Noted defects were Dental Caries and parents were notified.

Audio hearing tests were given in December and reports will be sent to parents.

The Massachusetts Vision tests will be done early in the year. Reports of last year's tests have been sent to the Massachusetts Department of Public Health in Boston.

Conferences with the teachers on the general health of the children, are held at every visit to the school, and home visits are made when needed.

In the following months, we hope to complete the following:

Mantoux tests for T.B.

Dental Clinic

D.P.T. and Polio Immunization Clinics.

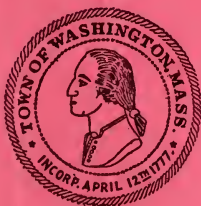

In conclusion, I wish to thank the School Committee, teachers, parents and the children for their cooperation in our health program.

Respectfully submitted,

ELIZABETH FILLIO, R.N.

School Nurse

REPORT OF
THE EASTERN BERKSHIRE WELFARE DISTRICT

Report of Director to Board of Selectmen:

The Eastern Berkshire Welfare District, which was formed July 1, 1951, has continued to be very active. In February 1965, the office was moved from Main Street to a new building constructed and owned by Kelly Realty Co. of Pittsfield. It was necessary that larger quarters be found in order to provide more storage for records and also to provide privacy for interviews with clients.

I would like to express my appreciation for the cooperation of Town officials in matters pertaining to Welfare and also to Prudential Committee member, Amos Gallant, who has showed interest in his role of advisor whenever needed.

Reports have been submitted to the Town Board from time to time as requested and to the Welfare District Committee on administrative details.

Increases in the cost of services this past year which include higher hospital rates, higher nursing home rates and a substantial increase in Leisure Time Activity Allowance for all recipients of Old Age Assistance have made heavier categorical expenditures. However, we were still able to complete payments for the year 1965 with small balances still left in Federal Grants which may be carried forward to 1966. There were 7 cases in January, 1965 and 5 cases receiving some form of assistance on January 1, 1966.

The total expenditure for Public Assistance which includes all categories, was \$10,216.00. Reimbursements for all categories of assistance has been \$14,855.69; however, these reimbursements are not based on the same expenditures since reimbursements are paid on the basis of claims presented monthly, subject to a later audit. Payments are received two months later; therefore reimbursements and expenditures can never match, month for month, in the fiscal year.

The cost of administration to the town, based on case load for the year, has been \$35.14.

Costs for medical services continue to rise. Hospital rates will be higher and nursing home rates are predicted to increase in 1966.

While it is my responsibility to administer assistance and apply the law and policies of the state and town, I wish to again express my desire to cooperate with Town officials and serve them to the best of my ability.

Respectfully submitted,

JOSEPHINE H. EAMES,
Director

School Entrance Age:

Pupils must be six years of age December 31st.

Working Certificates:

Any employment, either part or full time of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with the full or part time employment of minors between 16 and 18 years of age, in a factory, workshop, manufacturing, mechanical or mercantile establishment, in a bootblack shop or barber shop, in the construction or repair of buildings or by an express or transportation company. There are some prohibited employment for minors under 18.

These permits and certificates may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and the Citizens of Washington:

This is the twenty-first annual report which I have submitted as superintendent of this school union.

One year has been completed and we are starting on the second year of our cooperative project with the Town of Becket. It has proven advantageous to the pupils of both towns. The first two grades are nicely housed in the Washington School. Grades three through eight have the advantages of a larger school with all having one grade per teacher. It has been a continuing pleasure to see the Washington School in action. Mrs. Bybee continues to do a fine job with the first grade. Here they get off on the right start. Mrs. Joy Melanson was obliged to resign after a year of outstanding work in grade two. However, we are fortunate in acquiring a fine replacement. Mrs. Stanley Zaleski is continuing with a fine teaching job in grade two. These two grades are being supplied with materials and books which are necessary for an excellent job. Many workbooks, instructional games and supplementary reading books have been made available to these grades. Excellent teachers, adequate supplies, fine plant, what more can one ask? Perhaps a fine lunch program. We have that under the very capable management of Mrs. Rose Poillucci. The Winters are doing a conscientious and thorough job of maintaining a clean building, as well as transporting the pupils safely to and from school daily. Dr. Breit and Mrs. Elizabeth Fillio, R.N. are taking care of the health needs and Mr. Norman Carmel is giving speech therapy where needed.

Preparing the children of Washington for the demanding experiences of tomorrow is the primary job of the school. More is required of the pupil at all levels of education. It is our aim to give each as good a foundation as possible. A great deal of study is being made to ascertain the content and placement of subject matter as well as more efficient methods of presentation for understanding of what is to be learned. We no longer can be satisfied with things as they have been.

Our pupils today will be living in the twenty-first century with the requirements of that day and the changing tomorrows.

Changes are being made and we are keeping up with the demands as we see them. We are working with the other towns of the region. A guide for mathematics and one for science has been developed by joint curriculum committees. Reading, social studies, and English are to be studied next.

The budget for 1966 is up only \$50.00 over 1965. Most of the items are the same as last year. The greater difference is in the high school tuition item. This is down \$670.00 even though the rate per pupil is up. There are fewer pupils in high school than anticipated a year ago, resulting in an unexpended balance of \$1,285.87 in the expenditures for 1965. This amount returns to the town's general fund.

I would like to commend the School Committee on the serious attention given to school matters especially to their policy of considering what is best for the pupils.

Respectfully submitted,

EARL C. SUITOR,

Superintendent of Schools

REPORT OF SCHOOL NURSE

Mr. Earl C. Suitor
Superintendent of Schools
Washington, Mass.

Dear Mr. Suitor:

I hereby submit my annual report for the Washington School for the year 1965.

Physical examinations of Grade 1 and all new students were completed in December by Dr. George Breit, School Physician. On the whole the children were found to be in good health. The most noted defects were dental caries and enlarged tonsils.

The Mantoux test for tuberculosis was given to the children in the first grade, all new students and school personnel with follow-up X-rays given to the positive reactors. These tests were done with the assistance of Mrs. Mary Coughlin, R.N. of the Tuberculosis Clinic at Pittsfield General Hospital.

A dental survey was conducted by Mrs. Elizabeth Watt, State Dental Hygienist with fewer defects being found among the children. Notices were sent home to parents concerning those children who needed attention.

Vision and hearing tests were given to all the children. Parents of those failing the tests were notified, with the majority of parents bringing their children to specialists for further examination. Reports

on vision, hearing, handicapped and physical examinations are sent to the State Department every year.

In May and June, Diphtheria and Tetanus booster shots were made available to the children and school personnel. Efforts will be made to get the children on the prescribed five-year schedule.

A Diabetic Detection Drive was conducted in November. Those with positive findings were notified and free blood tests were available at the local hospitals.

I have attended several very informative In-Service programs in Pittsfield, Amherst and Springfield on subjects relating to Public Health and School Nursing.

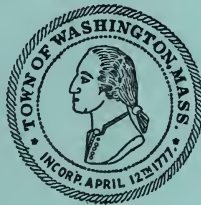

I wish to thank the School Committee, teachers, parents and children for their interest and cooperation in the School Health Program.

Respectfully submitted,

ELIZABETH FILLIO, R. N.

School Nurse

REPORT OF THE EASTERN BERKSHIRE WELFARE DISTRICT

It is with the utmost pleasure that I report to the Town of Washington the sum of \$3,709.47 is being returned from the 1966 Welfare appropriation to the Town General funds. It is always difficult to estimate the needs for Welfare a whole year ahead of time. Soon after the first of the year two nursing home cases were lost by death, which changed the picture. Only one new case of this same type was added during the year; we aided a family case on AFDC in the fall and have added two Disability cases which will continue on aid. The case load at the end of the year is 7, against 5 being reported at the beginning of the year.

Several changes have been put into effect in the past year. The Medicare program which began July 1, 1966 applies to persons receiving assistance as well as private individuals. It is difficult to say at this time just what the effect is on the Welfare program. Since Medicare is still very new and is requiring a tremendous amount of paper work, bills are still being processed through Blue Shield (Carrier for the Medicare program) for the last six months of 1966.

The former Medical Aid to the Aged program, the newest category of assistance, established in October, 1960, made possible under the provisions of the Kerr-Mills Bill passed through Congress in 1960, was abolished August 31, 1966. This program was superseded by the new Medical Aid program which assumed the cases formerly aided under the first program. In addition, it made Medical Assistance available to younger families whose children are in need of medical services and requires a means test.

At the same time directives were received to pay medical needs of all categories of assistance under the Medical Assistance program.

Reimbursement formulas were changed increasing the amount of Federal reimbursements to the Town.

Another provision of the Social Security law has made available to certain persons over 72 a monthly pension, who were not heretofore covered under this law. This provision applies particularly to elderly persons in nursing homes with no incomes.

I wish to extend my appreciation to Amos Gallant, Prudential Committee member, who has been very regular in his attendance at meetings and most cooperative in policy matters pertaining to public welfare.

Respectfully submitted,
JOSEPHINE H. FAMES

REPORT OF AN AUDIT

Mr. Arthur H. MacKinnon
Director of Accounts
Department of Corporations and Taxation
Boston, Massachusetts

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Washington for the period from January 1, 1964, the date of the previous examination, to November 13, 1965, and submit the following report thereon:

The financial transactions, as entered on the records of the several departments receiving or disbursing town funds or sending out bills for collection, were examined and checked.

Ledger accounts were compiled, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on November 13, 1965.

The books and accounts of the town treasurer were examined and checked. The recorded receipts were analyzed and checked with the records of the departments collecting money for the town and with other sources from which money was paid into the town treasury. The payments were compared with the warrants approved by the board of selectmen authorizing the treasurer to disburse town funds, and the cash balance on November 13, 1965 was proved by reconciliation of the bank balance with a statement furnished by the bank of deposit, by inspection of the savings bank book, and by actual count of the cash in the office.

The savings bank book representing the investment of the cemetery fund in the custody of the treasurer was examined and listed, the income being proved.

The records of tax titles were examined and checked, and the payment to the treasurer on account of a land of low value sale was compared with the treasurer's recorded receipts.

The records pertaining to temporary loans and maturing debt were examined and checked. The loans issued were compared with the treasurer's recorded receipts, while the payments on account of temporary loans, maturing debt, and interest were compared with the amounts falling due and were checked with the cancelled securities and coupons on file. The coupons outstanding on November 13, 1965 were listed and checked with the amount on deposit in the bond and coupon account.

The records of payroll deductions on account of Federal and State taxes, and the county retirement system were examined. The deductions were listed, the payments to the proper agencies were verified, and the balances in the general treasury on November 13, 1965 were proved.

The books and accounts of the tax collector were examined and checked in detail. The tax and excise accounts outstanding at the time of the previous audit, as well as all subsequent commitment lists, were audited and proved with the warrants issued by the board of assessors. The recorded collections were checked, the payments to the treasurer were verified, the recorded abatements were com-

pared with the assessors' records of abatements granted, the outstanding accounts were listed and proved, and the cash on hand November 13, 1965 was verified by actual count.

Verification of the outstanding accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

It is recommended that prompt action be taken to procure a complete settlement of the past due tax and excise accounts of prior years, some of which date back to 1960.

The records of the town clerk pertaining to dog and sporting licenses were examined and checked, and the payments to the town treasurer and to the State were verified.

The appropriations as voted by the town meetings were listed from the town clerk's records and compared with the aggregate appropriations raised by the assessors in the computation of the 1964 and 1965 tax rates.

The surety bonds of the several town officials required to furnish them for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts of the selectmen and of the sealer of weights and measures, as well as of the public welfare, veterans' services, and school departments, and of all other departments collecting money for the town or sending out bills for collection, were examined and checked with the treasurer's cash receipts. The outstanding accounts were listed and proved, and the cash on hand in the several departments was proved by actual count.

In connection with the audit of the town treasurer's accounts, the books and accounts of the Eastern Berkshire Welfare District were examined and checked. The recorded cash receipts and payments were verified, and the cash balance on November 13, 1965 was proved by reconciliation of the bank balance with a statement received from the bank of deposit and by actual count of the cash in the office.

The records of payroll deductions for Federal and State taxes, and the county retirement system, as kept by the district treasurer, were examined and checked. The deductions were listed, the payments to the proper agencies were verified, and the balances in the district treasury on November 13, 1965 were proved.

Appended to this report, in addition to the balance sheet, are tables showing reconciliations of the several cash accounts, summaries of the tax, excise, and departmental accounts, as well as a schedule showing the transactions and condition of the trust fund.

For the cooperation received from all town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ,
Assistant Chief of Bureau

School Entrance Age:

Pupils must be six years of age December 31st.

Working Certificates:

Any employment, either part time or full time of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with either the full time or part time employment of minors between 16 and 18 years of age in a factory, workshop, manufacturing, mechanical or mercantile establishment, barber shop or in construction or repair of buildings, a bootblack stand or establishment or by an express or transportation company. There are some prohibited employment for minors under the age of 18.

These permits may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Committee and the Citizens of Washington:

This is the twenty-second report which I have submitted as Superintendent of this school union.

In September we found that the number of first grade children has grown. At first a teacher's aide seemed to be the solution. Mrs. Betty DeAngelus was appointed and did an excellent job in this capacity. With a further increase in the number of pupils, it was considered essential to acquire another teacher. Starting January 9, 1967, Mrs. Dianne Martin will teach one section of first graders in the multi-purpose room. Chalkboards and a teacher's desk and chair have been purchased for use in this room.

The agreement between the Town of Washington and the Town of Becket has functioned very well up until now. The increased numbers in some grades makes it necessary to have a new solution. If the Washington pupils return to the Washington school, we do not wish to have more than two grades to a room. This will mean about twenty pupils in two grades for each of three teachers. The seventh and eighth graders will be sent as tuition pupils to the Junior High School in Dalton.

At a meeting of the school committee, members from the town which feed pupils to the Wahconah Regional High School, it was considered desirable to have an article included in the several warrants for the town meeting to create a "regional school district planning committee." Each town committee would study its own space needs and consider further regional plans with the other towns.

School Lunch

The school lunch program has grown with the increased enrollment. It was deemed necessary to have a helper in the kitchen. Mrs. Alice Levernoch did this very satisfactorily. Later when Mrs. Rose Pollucci was forced to resign because of her health, Mrs. Levernoch continued with the program. As a result the program continued without a hitch, even with the loss of Mrs. Pollucci who has been a valuable worker in the program from the beginning.

Janitor Changes

The School Committee accepted with regret the resignation of Mr. Winters as custodian for the school. James Poulton took over at the end of the summer and did a thorough conscientious job of cleaning the school until we were again faced with a resignation. However, we were fortunate in being able to have another fine young man continue the good work. Larry Burnham is now doing the work very satisfactorily. We hope he stays with it.

Repairs

Roof repairs, exterior painting, and multipurpose room painting. This work was completed with a special appropriation. Such expenditures are necessary in order to keep the building in good shape. More interior painting should be done. I wish to commend Emil Schulze for a good job which he did in clearing and mowing the area east of the building. It makes that section very attractive with the birches standing out.

Summer Project—Title I

Last summer we had a four week session of school for those who needed special attention. The small number of pupils were able to receive individual attention. For some it was a most rewarding experience. For all attending it was an opportunity to strengthen needed skills. A two week period for pre-school children served as a kindergarten experience and a readiness program for first grade. The total results were above expectations. We are planning to have another summer pre-school and remedial project financed by federal funds. The item for Title I on the financial part of this report is for this project. It is so placed that the expenditures depend upon receipt of the federal reimbursement.

Budget for 1967

The 1967 budget is up a substantial sum for the first time since 1964. The budget for 1964, 1965 and 1966 increased a total of only

\$829.00. This is exceptional for school budgets over this period. Most such budgets have gone up about ten percent each year. The 1967 budget is up about twenty-four percent. This is mainly because of the need of an additional teacher and the item for Junior High tuition. Additional reimbursements from the state will offset this. The net cost for 1967 is estimated to be \$29,255.00. This compares to \$29,798.30 for 1966.

Conclusion

In conclusion, I should like to point out that the administration of the school is the job for which the Superintendent is paid. The Committee members establish the policy and judge the execution of that policy. Their judgment is expected on all phases of the school program. However, they do not act individually for the School Committee, and they cannot be held knowledgeable of all incidents and details of the more or less complex areas of school management. Your Committee has endeavored to do its job in handling fiscal matters and personnel matters with judgment consistent with the best interest of the pupils and of the Town of Washington.

Respectfully submitted,

EARL C. SUITOR,
Superintendent of Schools

REPORT OF THE SCHOOL NURSE

Mr. Earl C. Suitor
Superintendent of Schools
Washington, Massachusetts

Dear Mr. Suitor:

One aim of the School Health Department is to impress on parents more forcefully the extent of their responsibilities. Each of the follow-services is designed to supplement—never to replace the duties of the families and their private physicians.

Physical examinations have been completed on all children in the first grade with few defects being found. Parents were given the choice of having their private physician or our school physician, Dr. George Breit give the examination, with the majority having this done by Dr. Breit.

The Massachusetts vision and hearing tests were given to all children. Reports of defects were sent to the parents, and the majority of these are being corrected. Reports also were sent to the Massachusetts Department of Public Health.

Mantoux testing for tuberculosis was done on grade 1, all new students, employees and school bus drivers, by Mrs. Mary Coughlin, R.N. of the Berkshire County T. B. Clinic.

Dental examinations were done by Mrs. Elizabeth Watt, Dental Hygienist, with less defects being found and more children being treated by their family dentist.

Immunization boosters of Tetanus and Diphtheria were given to Grades 1 and 2 in an effort to get these children on the five year program.

Influenza vaccine was made available to the school personnel in an effort to keep the employee absenteeism at a minimum, with good results.

In connection with the drive to detect diabetes, drypacs were given to all children and personnel. Over fifty percent of these were sent to local laboratories. The national average being 20 percent in 1965. I thank everyone for their cooperation in this drive.

In conclusion, the general health of the school children is very good, I wish to thank Dr. Breit, the School Committee, Mr. Suitor, and all teachers and parents for their cooperation in our School Health Program.

Respectfully submitted,

ELIZABETH FILLIO, *R.N.*

**REPORT OF THE CHAIRMAN, BOARD OF SELECTMEN,
and SUPERINTENDENT OF ROADS**

To the Citizens of Washington:

This being my first year in office, I would like to inform the citizens of some of the things that have taken place this year.

I am sure that you will all agree that this has been a year of unusual circumstances with the resignation in mid-year of Mr. Joseph Furlong, and then the resignation of Mr. Amos Gallant, thus leaving me alone to perform the duties of the Selectmen's office. With this in mind and the fact that in this year I am also new as Road Superintendent, I don't mind admitting I have been somewhat overwhelmed. I have however been very fortunate in having the help and support of many responsible citizens who, out of a sense of duty and responsibility to the Town, have helped me perform my duties in both categories. Due to the lack of cooperation in some cases of Town officials, I have had to turn to these citizens for help; and for their help and understanding I would like to take this opportunity to thank them.

As to the activities of the Selectmen's office, this has been just a matter of continuing Town business. Being alone, I did not want to open any new doors (even though there is much to be done) without a full Board of Selectmen. I have great hopes of the Town seeing its duty in the up-coming election to get out and vote for a Selectmen who will work for the good of the Town and leave personal feeling out of politics. Thus, we, the people of Washington, will have a group of men who can work together for the good of all concerned.

I would like also to mention at this time that the circumstances surrounding the Town Highway Dept. have been very unusual this year due to the lack of help and proper equipment. I am very thankful to Zigmund Zaleski who is a very consciencious and willing worker,

and I wish I had two more men like him. Unfortunately conditions, wages and benefits are not adequate to encourage this type of help. I am grateful to Mr. Zaleski for his work in the past year.

The work was started very late in the Fall on Frost Road, but the State Department of Public Works is very much satisfied with what has been accomplished thus far. I think that you will all agree that this is going to be a real improvement over the old road and that this portion of Frost Road will be finished this year. I wish to thank you all for your patience and cooperation while this road is being done.

In this warrant you will notice that some of the appropriations are somewhat larger than in the past. I would like to point out that rising costs in materials, and I would hope salaries, make these increases necessary.

I would also like to say that I enjoy working for the people of Washington as Selectman and also as a working foreman on the Road Department and I hope that I may serve you again in the up-coming year.

Respectfully submitted,

KENDALL E. VanBLARCOM

*Chairman of Selectmen
Superintendent of Roads*

REPORT OF THE EASTERN BERKSHIRE WELFARE DISTRICT

For the second consecutive year a balance has been left in the Public Welfare appropriation account, at the end of the year. This year the amount being returned to the Town General Funds is \$2,589.25.

The one case on Old Age Assistance as of 1/1/67 became deceased and no new applications were received during the year so there were no further expenditures under that category. The total case load on 1/1/67 was 8 but at the end of the year had increased to 14. The availability of the relatively new MA program for children of low income families has resulted in several new cases during the year and more children are receiving adequate medical care as a result.

On Sept. 1, all recipients of categorical assistance were given an increase of 3.4% in their budgets as a result of the increasing rise in the cost of living.

The total amount spent for Public Welfare in all categories last year was \$14,351.39. Of this amount \$7,216.38 was spent for medical care of persons on all categories. However, the net cost to the Town was a net profit of \$592.73, after all receipts had been tabulated. Reimbursements come in from Federal Grants, state grants, probate court for parent support and refunds and recoveries. These reimbursements other than Federal Grants, go into the Town General Funds and are used by the Assessors against the next year's tax rate.

Gov. John A. Volpe signed into law, Chapter 658 of the Acts of 1967 on Oct. 3, which calls for a reorganization of the Department of Public Welfare and the Direct Administration of the Public Welfare system by the Commonwealth. As of this writing I have no information as to what services may be offered under the new system.

In closing, I wish to express my appreciation of the excellent cooperation given by Mr. Amos Gallant, the Prudential Committee member for last year and Mrs. Lorraine Deane, Treasurer for the Town. It is good cooperation by all Departments which helps to make a smoothly running program.

Respectfully submitted,

JOSEPHINE H. EAMES,
Director

School Entrance Age:

Pupils must be six years of age December 31st.

Working Certificates:

Any employment, either part time or full time of minors 14 to 16 years of age, requires authorization by permit.

An educational certificate is required in connection with either the full time or part time employment of minors between 16 and 18 years of age in a factory, workshop, manufacturing, mechanical or mercantile establishment, barber shop or in construction or repair of buildings, a bootblack stand or establishment or by an express or transportation company. There are some prohibited employment for minors under the age of 18.

These permits may be obtained at the School Office.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Committee and the Citizens of Washington:

This is the twenty-third report which I have submitted as Superintendent of this school union.

In September we opened with a new arrangement. Mr. Robert Lawson, II was appointed principal and teacher of grades five and six. His extensive travels and study have equipped him to give these pupils a varied and interesting experience. Mrs. Loretta Ezell, another teacher of experience was appointed to teach grades three and four. The first two grades were admirably instructed by an experienced teacher, Mrs. M. Farnham. She was substituting until the return of Mrs. Diane Martin. We were very fortunate in being able to fill these positions so well. The seventh and eighth grades are attending Dalton Junior High School. This is a fine arrangement.

Our janitor resigned. This left us with a problem. Mrs. Erwin Levernoch, and Mrs. Fred Hansen, Jr. have been taking care of the building in the interim while we are looking for a replacement. This is a service "beyond the call of duty" for which we are grateful.

Mr. Lawson has been very active in enlisting interested people in town to contribute time, talent, materials and equipment to the advantage of the school. Mr. R. Elliott has given considerable time with the physical education classes, in preparing the skating rink, and getting materials. We are fortunate and thankful that we have the benefit of his experience in this field.

Mr. and Mrs. Julio Granda have helped with the art work in several projects. They have also given many books for the school library. Mrs. A. Jarvie and Mrs. J. DeAngelus have assisted with the music. We wish to thank these people for contributing their time and talents for the benefit of the school children.

Some of the people who have helped in a variety of ways include: Mr. and Mrs. J. Furlong, Mr. R. Adams, Mrs. J. DeAngelus, Mrs.

R. Elliott, Mr. VanBlarcom, Mr. N. O'Brien, Mr. and Mrs. F. Hansen, Mr. and Mrs. E. Levernoch and Mrs. S. Southard.

The P.T.A. under the chairmanship of Mrs. R. Pollucci raised \$150.00 by a penny social. This money will be used for fencing the playground.

Trips have been taken by certain pupils to the Western Massachusetts Electric Company, Crane Paper Museum and factory, the Becket and Pittsfield Libraries, and to the Eagle Publishing Company. These experiences, along with the use of visual aids which have been obtained, have added much to the background of these pupils. I should add that the regular classroom work is also progressing in a fine manner.

Financial:

Expenditures for 1967 total \$48,874.53 with an unexpended balance of \$649.45 which returns to the general Town fund. Fewer pupils attending high school resulted in a balance in the tuition item, some of which has been used to furnish and equip the auditorium for better classroom use. Draperies for darkening this room for audio-visual use have been contracted for. Tackboard space, bookcases, library books, etc., have also been ordered. We were also able to obtain some physical education equipment.

An increase in the number of high school pupils next year results from a graduating class of two pupils with a freshman class of six, and these six from junior high being replaced by eleven from grade 6.

Tuition accounts for \$9,548.00 of the total budget increase of \$12,428.00. The junior high pupils were tuitioned for only four months in 1967, but in 1968 this will be for a full year. Tuition is the product of the rate by the number of pupils. An increase of \$2,000.00 in teachers' salaries is due to the fact that we have employed experienced teachers, with reasonable salary increases. The rest of the bud-

get increase is due to adjustments realistically made in the other items where necessary.

Conclusion:

This report has been one of appreciation and thanks.

The successful operation of the Washington School for the benefit of Washington children is due to the efforts of many. It has been my observation over the past couple of decades, that the people of Washington are interested in their children and wish to provide a good school for all of them.

Now is the time to look to the future. Continued cooperation, planning and effort will be the key to meeting the challenges of the coming year.

Respectfully submitted,

EARL C. SUITOR,

Superintendent of Schools

REPORT OF THE SCHOOL NURSE

Mr. Earl C. Suitor
Superintendent of Schools
Washington, Massachusetts

Dear Mr. Suitor:

I hereby submit my fourth annual Health Report for the Washington School.

The objective of our program is concerned with all aspects of the health of our students. This includes physical, mental, emotional and social health.

Our accomplishments are as follows:

Physical examinations of students in the first grade were given by Doctor George Breit, school physician. Notices of defects were sent to parents. These were few and minor.

Mantoux tests for T.B. were done by Mrs. Mary Coughlin, R.N. of the Berkshire County T.B. Clinic. These included the entire student body, personnel, bus drivers, kitchen workers and custodians. Positive reactors to the Mantoux test are followed with a chest X-ray periodically.

Vision and hearing tests were given all students. Parents were notified of defects and cooperation was very good. State reports were sent to Boston.

Dental examinations by Mrs. Elizabeth Watt, Dental Hygienist, were done on all students. Every year shows improvement in this field.

Influenza vaccine was again offered to members of the staff.

Measles, Tetanus, and Diphtheria Clinics were held.

National Diabetic Detection Week was again observed with more cooperation. We are far above the national average in observing this. Dr. Garvey Adeson, Head of Berkshire County Division, and myself wish to thank you for your efforts.

Conferences with teachers, parents and students were held.

Accidents and childhood diseases were at a minimum, while intestinal upsets and viruses were quite high.

In conclusion, I wish to express my appreciation for the cooperation of parents, School Committee, Mr. Suitor, teachers, students and other personnel.

Respectfully submitted,

ELIZABETH FILLIO, R.N.,
School Nurse
